

Heuristic Evaluation - FoodHub Website UI Redesign

Existing Website: Swiggy Homepage

Objective: Evaluate the existing interface using usability heuristics and identify improvements.

Visual Hierarchy

Issue: Too many competing elements.

Improvement: Improve spacing, typography, and emphasize primary actions.

Consistency

Issue: Inconsistent buttons and spacing.

Improvement: Use a consistent design system.

Navigation

Issue: Navigation can be confusing.

Improvement: Simplify the menu.

Responsiveness

Issue: Crowded layout on mobile.

Improvement: Design responsive layouts.

Accessibility

Issue: Contrast and button sizes need improvement.

Improvement: Increase contrast and touch target sizes.
